

The **Principal** Profile

Emile Ferlisi

Principal of South River Public School
Near North District School Board

What role do principals play in helping students be successful?

- “ Principals have the pleasure and privilege of supporting a welcoming, inclusive and safe learning environment for all. They help students to be successful by seeing the best that students have to offer. **Principals support teachers and students by seeking positive solutions to challenges** that might otherwise interfere with learning, and by keeping relationships positive and productive throughout the school. ”
