

The **Principal Profile**

Tisha Elliott

Vice-Principal

Rick Hansen Secondary School

Peel District School Board

How is the educational experience of all students transformed by implementing Black-focused curriculum and knowledge?

“ Through courses that centre the lived experiences of racialized and marginalized bodies – specifically those who identify as Black, Caribbean and African – **all students will gain a deeper understanding and appreciation for the contributions of these communities.** They also learn together as they decenter the white, dominant narratives in education and develop critical consciousness, as they navigate and challenge the world around them. ”
